Andrew Surmani, Karen Farnum Surmani, Morton Manus : Alfred's Essentials of Music Theory: Rhythm Double Bingo before purchasing it in order to gauge whether or not it would be worth my time, and all praised Alfred's Essentials of Music Theory: Rhythm Double Bingo:

2 of 2 people found the following review helpful. Product is great, 's packaging is not.By KristinaThe product is exactly what I asked for; it's a great tool for reinforcing rhythms with kids and making it interactive for them. I highly recommend the product for a quick fix for Fridays! You will need to make "chips" (I just cut up little pieces of paper) didn't bother to shrink wrap it or secure it in anyway for the shipment though; I had to sort through the bent up cards just to see if I still had all of the cards, answer cards, and instructions. They were all out of order and bent on many of

the corners. Disappointing packaging, but a great buy! Maybe buy it in person if you can! 1 of 1 people found the following review helpful. The game was very useful in the music theory class I teach. I gave it four stars as I felt the bingo cards could be more durable, they bend easily and I think I will need to laminate them at a local office store so that they last.

Alfred's Essentials of Music Theory is designed for students of any age, whether listeners or performers, who want to have a better understanding of the language of music. In this all-in-one theory course, you will learn the essentials of music through concise lessons, practice your music reading and writing skills in the exercises, improve your listening skills with the available ear-training CDs (sold separately), and test your knowledge with a review that completes each unit. The Double Bingo games feature two games per side of each player card - one in orange and the other in purple. Play the orange game, play the purple game then play the two games together. Flip it over and do the same---that gives you 6 games altogether per set! Each set includes 35 player cards and 4 caller cards. The complete line of Alfred's Essentials of Music Theory includes Student Books, a Teacher's Answer Key, Ear-Training CDs, Double Bingo games, Flash Cards, Reproducible Teacher's Activity Kits, and interactive software for students and teachers in private study, studio and network environments.
