They are very detailed with 1 inch equalling 1 mile or a scale of 1:63,360. The legend covers all the various stake holders which makeup the quilt of public and private lands, in a simple color coated fashion. The map includes the waterway regs, which is handy as a part of pretrip planning. If you fish the map details include many side brooks, ponds and lakes you may wish to try. It comes on a coated paper which should be water repellent.I have 2 issues with the set. First there is a compromise between scale and have this waterway on a single map. Second is the price \$24 for the "set" seems pricy. Neither of these issues should keep you from this wonderful set.0 of 0 people found the following review helpful. The sheer size of each required constant adjustment if one used a waterproof case (which is common on a canoeing trip) in orderBy CustomerGiven the map is of the "Allagash River Waterway", I found it intriguing that it was blown up to the point where there was a requirement to purchase two separate maps. The sheer size of each required constant adjustment if one used a waterproof case (which is common on a canoeing trip) in order to prove useful during the day. I would have happily paid more for a more appropriately sized map as the map quality was good, accurate and extremely useful.0 of 0 people found the following review helpful. Five StarsBy Emmanuel S BossLoved the maps and used them in the field.

Waterproof Tear-Resistant Topographic MapExpertly researched and created in partnership with local land management agencies, National Geographic's Trails Illustrated map of Allagash Wilderness Waterway South provides an unparalleled tool for exploring this majestic 92-mile-long ribbon of rivers, lakes, ponds, and streams that winds through the heart of the North Maine Woods. This map is loaded with valuable information such as watercraft regulations, rules for recreational use and access, river difficulty scale, checkpoints, visitor and ranger station locations, and more. Some of the key areas of interest included are Eagle, Chesuncook, Chamberlain, Allagash, Caucomgomoc, Moosehead, and Seboomook lakes; Gero Island; Bear Mountain; Big Reed Forest Reserve; St. John Pond; and Big Spencer Mountain.Year-round activities abound in the region and the location of boat launches, canoe carry downs, scenic viewpoints, lookout towers, and other points of interest are clearly marked as are park and forest boundaries and access points. Campers will appreciate the attention paid to noting the variety of camping facilities available including primitive campsites, group campsites, campgrounds, picnic areas, restrooms, parking, and trailheads. Whether paddling the Northern Forest Canoe Trail, camping in the North Maine Woods, or driving the Maine Scenic Byway, this map performs as a highly functional travel tool that is as useful as it is remarkably crafted. The map base includes contour lines, shaded relief, and elevations for summits and many lakes.Every Trails Illustrated map is printed on "Backcountry Tough" waterproof, tear-resistant paper.
