Full of fun tips and tricksBy drbear1945The cover headline "money saving tips" is what drew me to this book, but after purchasing and reading it, the practical knowledge plus the money saving tips make it well worth the purchase price.They cover everything, and I mean everything, and the advice is easy to read and practical. It's so packed with information I found I have to read certain sections over again or even take notes but I've found little tips on everything from my dog's vet bills to planning a cruise.Love this book!11 of 12 people found the following review helpful. Some good, solid informationBy Radar626This book contains does contain information that many people are already are aware of, but it also has a good bit of stuff that most people haven't heard of or is not widely known. I like the tips that show the reader how to use items around the house as problem solvers versus having to purchase a new product. This is certainly a great book to have around the house or to give as a gift.

By showing me how to use what I already have on hand, it has saved me money and shown me several ways to save even more. It's kind of like having all the best tips and tricks from grandmas all over the world in one book :)0 of 0 people found the following review helpful. Its just okayBy brenda kappCan be helpful, not all these little hints are new

Save hundreds of dollars by just following the secret tips found in this handy reference guide filled with tips and ?confidential advice? that come straight from the mouths of knowledgeable insiders. Most of us have been victims of misinformation or withheld information. Amazing Insider Secrets will give you the facts that will make you the smartest, sharpest consumer on the block. The secrets range from how to slash your food costs to crucial appliance-care instructions that belong in every owner?s manual. You?ll be amazed at how enlightening and simple these remedies and professional solutions are: * Dealing with stress? No need to buy an expensive drug?try basil tea. Fresh basil is easy to find in any supermarket. * Fake the cream in sauces: Use nonfat condensed milk instead of heavy cream; you get the creaminess without the fat and calories?and save money. * Seeing spots: Spray an ink spot with hairspray then launder, or sprinkle baby powder on an oil stain, let the powder absorb the oil then brush it off. * Don?t buy plants retail. Divide perennials with friends and neighbors, or watch for a local garden club to hold a plant sale. Learn easy, low-cost solutions to problems around the house, common lawn care mistakes, must-have kitchen items to have on hand, and many more handy tips that will keep your life running smoothly, prevent huge repair bills, and save you time and hassle.
