For Those of Us Who Are Not Tech Savvy!By BastFrom setting up the Echo to using it seamlessly, this book will teach you everything you need to know about the Echo in an hour (or less, if you're a fast reader!).The Echo is a cool piece of technology from that acts as a personal assistant. You can ask it what the weather is, to tell you a joke, to set alarms/timers, or to even play music (and much much more).This book

is so comprehensive about all the cool things that the Echo can do, it should have been included in the box along with the Echo! The authors even include troubleshooting tips. I recommend this book to anyone who is even considering purchasing the Echo. You cannot go wrong with this book. It's written in an easy, straightforward manner and is catered toward those of us who are not technophiles. 6 of 6 people found the following review helpful. Just What I Needed to Make a Buy Decision By Maurice I don't usually review e-books, but this is an exception. This simple book contains nearly everything one needs to know about the Echo before buying one. Sure, most of the material is available on-line somewhere or other, but here it is all in one place. 4 of 4 people found the following review helpful. Great Source for Echo features By Reviewer-MA It is, a nice resource to learn about the available functions of Echo. I found it very informative.
