From University of Rochester Press : An Annotated Catalogue of the Edward C. Atwater Collection of American Popular Medicine and Health Reform: Volume III, Supplement: A-Z before purchasing it in order to gage whether or not it would be worth my time, and all praised An Annotated Catalogue of the Edward C. Atwater

Collection of American Popular Medicine and Health Reform: Volume III, Supplement: A-Z:

This third and final volume of the annotated catalog of the Edward C. Atwater, M.D. Collection of American Popular Medicine includes books, manuscripts, pamphlets, periodicals, and printed ephemera acquired since the publication of Volume 1 (Authors A-L) in 2001 and Volume 2 (Authors M-Z) in 2004. Volume 3 (Authors A-Z) contains entries for more than 2,000 items. Together, these three volumes provide an unparalleled perspective on the vast and diverse body of literature published between the colonial period and World War I that, among other things, instructed Americans on the domestic treatment of illness or injury, advised women on reproductive control, and enlightened school children on the structure and functioning of their own bodies. The Atwater Collection is the product of nearly four decades of collecting by Edward C. Atwater, M.D., Professor Emeritus of Medicine and the History of Medicine at the University of Rochester School of Medicine and Dentistry. The catalog was compiled and annotated by Christopher Hoolihan, Rare Books and Manuscripts Librarian at the Edward G. Miner Library.

An unending source of useful information. Not only does he open a window to the rich historical materials of the Atwater collection, but he gives the reader useful insight into the complex relationship between American medicine and the broader culture. --Isis
About the Author
Christopher Hoolihan is History of Medicine Librarian at the University of Rochester Medical School's Edward G. Miner Library.
