Tom Jackson : An Illustrated Guide To The Animals of America: A visual encyclopedia of amphibians, reptiles and mammals in the United States, Canada and South America, with over 350 illustrations before purchasing it in order to gage whether or not it would be worth my time, and all praised An Illustrated Guide To The Animals of America: A visual encyclopedia of amphibians, reptiles and mammals in the United States, Canada and South America, with over 350 illustrations:

1 of 1 people found the following review helpful. Animals of AmericaBy Patricia OldhamBeing a lover of wild animals, I just had to have this book when I saw it. It is quite informative has many illustrations, which I truly loved.

Even my nieces nephews enjoyed the information contained within its pages. Thank you!

A fascinating encyclopedia for all the family about the astonishing animal kingdom of North and South America. Over 350 illustrations and photographs, including distribution maps, make this book perfect for schools or as a home study aid.

About the Author Tom Jackson writes on natural history and science and has worked at Jersey Zoo and in Zimbabwe. His works include: *Tropical Forest* (Raintree) and *The Illustrated Encyclopedia of Animals of the World* (Southwater). Michael Chinery, consultant, has worked on a number of wildlife magazines, and written and edited definitive field guides. His books include *Butterflies and Insects*, *The Natural History of the Garden* (all Collins), and *Field Guide to the Wildlife of Britain and Europe* (Kingfisher).
