This book is also an inspiring reference for artists who portray animals.0 of 0 people found the following review helpful. Five StarsBy sunshine catBeautiful book with excellent artwork. Art Journey Animals is the first-ever compendium of the most soulful and inspiring animal and wildlife artworks, culled from the winners of North Light's popular competition-books series. More than 100 hand-selected drawings and paintings by a wide variety of top contemporary artists have been carefully curated to capture the wonder of nature, from the family room to the farm and the sea to the savanna. The best of the best masterworks from AcrylicWorks,

Splash, Strokes of Genius and INCITE have been compiled into this gorgeous, oversized full-color book, which includes observations into the texture, innovation, style and significance of each piece. Accompanying in-depth interviews with the artists offer meaningful insights into nature, the creative process and the human condition. "I hope to bring the viewer into a more intimate view and greater connection with the animal, and through that animal, with themselves." --Heather A. Mitchell, Shepherd Pause
