Elizabeth Adams Smith : Atlantic Cruising Club's Guide to Long Island Sound Marinas (Book CD-ROM) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Atlantic Cruising Club's Guide to Long Island Sound Marinas (Book CD-ROM):

1 of 1 people found the following review helpful. somewhat helpful By Christopher G The book was a good resource for location, amenities and services. the prices were way off. Almost all were higher than the book specified. 0 of 0 people found the following review helpful. Cruising Guide By creekman The guide was pretty clear and useful. Did hit as many areas as would have been nice but still pretty good.

Facts, Facts, and more Facts + 1,800 Photos, Rates, Ratings, and Reviews Absolutely everything you need to know to

decide where to tie up for a night or a week, packed into the only objective consumers guide to marinas and marine facilities. For more than a decade, the Atlantic Cruising Club has been providing highly detailed, objective marina information to the East Coast boating consumer. The latest Guide the Seventh Edition - has now grown to nine regional volumes covering Bar Harbor, ME to Padre Island, TX in the East, and Point Roberts, WA to Chula Vista, CA on the West Coast. The Guides are being published sequentially over the next year. The first regional volume, the Atlantic Cruising Clubs Guide to New England Marinas was very well received and the second regional volume, the Atlantic Cruising Clubs Guide to Long Island Sound Marinas, is now complete. 232 Marina Reports and 1,800 photos cover Block Island, RI to Cape May, NJ, including the Fishers Island Sound, the Connecticut River, the Peconics, Long Islands South Shore Inlets and the New Jersey Inlets. These are consumers guides marina advertising is neither solicited nor accepted and there is no charge to the marinas for inclusion. The new edition has been expanded to an 8 " x 11" format to accommodate the addition of both photographs and 50% more information -- up to 300 facts on each marina. Every facility is now rated on three scales 1 to 5 Bells for cruiser services, 1 or 2 Travelifts for boatyard services and a Sunset for very special places. Marina information covers contact info, marina operations, rates, services, facilities, megayacht services, navigation information, boat supplies (chandlery, propane, ice, CNG, bait), and boatyard capabilities (rates, certifications, specialties, etc.). The very detailed "whats near by" sections cover restaurants (names price ranges, too), lodgings (rates), recreation (from golf and tennis to swimming and bowling), entertainment (cinemas to museums, tours, and live theater), provisioning (including the nearest chain supermarkets, gourmet shops, farmers markets, fishmongers, etc.), general services (from bookstores and hardware stores to full-service laundries), transportation (rental cars, courtesy cars, airports and limos, cabs, bike rentals, water taxis, ferry services, local busses, rail, etc.) and medical services (from 911 and hospitals to massage therapists and vets). The "Review" section is comprised of three densely packed paragraphs (Setting, Marina Notes, and Notable), each chock full of even more useful information. The Atlantic Cruising Clubs Guides to Marinas are delivered in both print and CD-ROM formats (in one package). Each volume includes 1,600-2,000 photographs - one of each marina in the Book, and 4-9 full-color photos of each on the CD-ROM. The easy-to-use CD-ROM allows boaters to search on over 100 fields location, rates, ratings, reported depths, etc., etc., etc and it stores in a sturdy clear vinyl sleeve in the back of the book. Both the Book and CD-ROM have been designed with easy navigation in mind. A Regional Map shows all 232 marinas covered in the ACCs Guide to Long Island Sound Marinas and 14 sub-region maps locate the marinas in a particular area. On the CD-ROM, the map is in full-color and all the marina "buttons" are "hot"; just click to display that marinas Report. Or use the very flexible CD search tool which makes searching on over 100 data fields very simple. For instance: "Show me all the marinas in Mid-Coast Maine that have slips with at least 6 ft. of reported depth at MLW, charge less than \$1.50 per foot, and have at least a 3 Bell Rating." Or "Show me all the marinas

" the bible for cruisers..Nearly as indispensable as the boat itself, the entire series ...is exemplary for completeness and objectivity. -- Blue Water Sailing, September 2003..is a very good effort for a very good price. We'll look forward to the expanded coastal coverage -- Powerboat Reports; September 2003..should make heading ashore much less of a crapshoot. everything anyone could possibly want to know..versatile search function -- Yachting, December 2003
