Simeon Margolis : Johns Hopkins Complete Home Encyclopedia of Drugs 2nd ed. before purchasing it in order to gage whether or not it would be worth my time, and all praised Johns Hopkins Complete Home Encyclopedia of Drugs 2nd ed.:

0 of 0 people found the following review helpful. Five StarsBy joan s.It's a great reference book and and very portable. The price was good too.0 of 0 people found the following review helpful. NO MORE PDF'S OR PDR'SBy ChristianConservativThis book settle's it for me. It is a must have for anyone alive that takes any medicine. Period. Easy to read, follow, and understand.3 of 4 people found the following review helpful. Incredibly usefulBy A CustomerThis book is the easiest to use of all the drug books I have seen. The page at a glance format shows you everything you need to know on one page, no flicking back and forth, and is especially good on interactions.This book is highly recommended for anyone who wants a handy reference book in the house to refer to again and again, or who is looking for a really excellent gift for a friend or loved one.

Exhaustive reference book containing up-to-date, accurate information - derived from an electronic database that's updated continually - on more than 3,000 generic and brand name medications.

Ranked #1 hospital in the US for ten consecutive years -- US News and World Reports, Dec 2000
This is one of the top books on health you must own. -- Town and Country Magazine, May 2001
