**Allen Rubin, Earl R. Babbie : Research Methods for Social Work (SW 385R Social Work Research Methods)**  
before purchasing it in order to gage whether or not it would be worth my time, and all praised Research Methods for Social Work (SW 385R Social Work Research Methods):

2 of 2 people found the following review helpful. Jumbled presentation long winded unclear: garbageBy MikeWORST  
TEXTBOOK EVER USED.What were these authors thinking???If I could give the book negative stars I would. This  
book is so unclear, that I've abandoned it at times and used Google; after using Google I can see even more clearly that  
this book is terrible: overly wordy, over relies on examples and syllogisms; does not define and describe concepts  
clearly and explicitly. It is as if the authors themselves were unclear on the concepts and had to rely on using  
examples.If your course assigned this textbook....you are in for a rough ride. I suggest you get another in addition to  
this one, because this one is almost worthless.0 of 0 people found the following review helpful. Poor qualityBy  
MajidThe book had a rubber band around it because the pages were unbided from the cover. This was not in the

Widely considered the best text for the course, RESEARCH METHODS FOR SOCIAL WORK, 7e combines a rigorous, comprehensive presentation of all aspects of the research endeavor with a thoroughly reader-friendly approach that helps students overcome the fear-factor often associated with this course. Allen Rubin and Earl R. Babbie's classic bestseller is acclaimed for its depth and breadth of coverage, clear and often humorous writing style, student-friendly examples, and ideal balance of quantitative and qualitative research techniques--illustrating how the two methods complement one another.

"The best book of its kind in social work it just keeps getting better." "The most comprehensive research text available for social work students the best introductory research text on the market. 'humanizes' the research process." "Exciting and interesting Speaks directly to the issue of reducing social workers' fears related to research and making the connection between research and practice." About the Author Allen Rubin has been doing and teaching research since 1976, when he received his Ph.D. from the University of Pittsburgh. Renowned in social work, Dr. Rubin has written several research texts, published numerous research studies on social work practice, and is a past president of the Society for Social Work and Research. Earl R. Babbie graduated from Harvard University before enlisting in the U.S. Marine Corps. He received his Ph.D. from the University of California, Berkeley, and began teaching shortly thereafter. Credited with defining research methods for the social sciences, Dr. Babbie has written several texts, including the bestselling THE PRACTICE OF SOCIAL RESEARCH and THE BASICS OF SOCIAL RESEARCH.
