David Royse : Research Methods in Social Work, 6th Edition before purchasing it in order to gage whether or not it would be worth my time, and all praised Research Methods in Social Work, 6th Edition:

0 of 0 people found the following review helpful. Four StarsBy fayeFine0 of 0 people found the following review helpful. This book is well writtenBy Athena MarsdenI am enjoying the learning and the writing style. As a social work student I share a common fear of anything math related. This book takes the intimidation factor out. I am glad to recommend it to anyone who wants to study research in Social work. If it happens to be your text book, then you are in for a treat.0 of 0 people found the following review helpful. great for a foundation in sw research!By EricaGood clarification and explanation of research in social work. Easy to read, and chapters are not too long.

Don't get lost in research methods -- succeed in the class with RESEARCH METHODS IN SOCIAL WORK. This how-to book includes simplified, step-by-step instructions using real-world data and scenarios. Plus, it comes with updated tools that show you how to create a research project and write a thesis proposal. Every chapter comes with

self-assessment sections so you can see how you're doing and prepare effectively for the test.
