By Derric (Rau Khu) Moore author of MAA AANKH vol.I, Kamta: A Practical Kamitic Path for Obtaining Power and Maa: A Guide to the Kamitic Way for Personal I like when African American preachers write a book like this because it is like shocking to them that a lot of the things they believe in have their roots in African cultural tradition. Coming from a strong Christian household and my father being a preacher, I know when I presented certain facts and had it confirmed by historians, my father was shocked in a good way. I could see as a result, his understanding of things changed which made him more appreciative of African thought and philosophy. You see in the past (can I get a witness), the preachers condemned anything that was African, while they shouted (danced) in the pulpit. It is only when they saw other pastors like the ones on TBN network and saw that they didn't do that they tried to quell the Spirit and act all uppity. :) This book does just that and you can hear in the authors' tone as they try and make sense why African Americans do some of the things they do, such as the belief in heaven. Most African Americans in the church believe in heaven is that they will see their ancestors when they die. It is simply a glorified version of the ancestral lands. Anyway, all of this and more is written about within this book. Hope this was helpful. 0 of 0 people found the following review helpful. Now I Understand By S. Mason Excellent! Flora Bridges does an wonderful job in explaining the African experience to Christian worship. 0 of 0 people found the following review helpful. Five Stars By CI Priess Just what I needed!

Bridges (a Baptist minister in Alabama who holds a doctorate in systematic theology) explores the central role of spirituality in African-American culture and history, arguing that its roots lie in the African spiritual worldview inherited by African-Americans. Chapters describe the quest for identi
