From Oxford University Press : Rethinking Canada: The Promise of Women's History before purchasing it in order to gauge whether or not it would be worth my time, and all praised Rethinking Canada: The Promise of Women's History:

Thoroughly revised and updated, this third edition features key developments in Canadian history--from the founding of New France to the present--while at the same time highlighting the distinctive texture of women's experiences, identities, and aspirations. A decidedly non-traditional reconstruction of Canadian history, Rethinking Canada focuses on the lives, struggles, and contributions of women, enlarging and diversifying the picture of the past found in conventional historical accounts.

"Appropriate to an introductory course in Canadian women's history, the articles cover a wide range of themes such as politics, work, sexuality, public policy and family. Each article is introduced by a short essay which not only provides necessary background and historiographical context but also links themes and ideas with other articles in the collection. The result is a coherent and accessible teaching tool." Atlantis About the Author Veronica Strong-Boag, Professor, University of British Columbia. Anita Clair Fellman, Professor, Old Dominion University.
