Arlene Kanter, Beth Ferri : Righting Educational Wrongs: Disability Studies in Law and Education (Critical Perspectives on Disability) before purchasing it in order to gage whether or not it would be worth my time, and all praised Righting Educational Wrongs: Disability Studies in Law and Education (Critical Perspectives on Disability):

Righting Educational Wrongs brings together the work of scholars from the fields of disability studies in education and law to examine contemporary struggles around inclusion and access to education. Specifically, contributors examine disability related policies and practices as they contribute to or undermine educational access for individuals with disabilities.

"An outstanding contribution to the literature of both disability law and disability studies, effectively making connections between the two." - Ruth Colker, Moritz College of Law, Ohio State University
About the Author
