From Brand: Authentic : Searching for Intimacy before purchasing it in order to gage whether or not it would be worth my time, and all praised Searching for Intimacy:

Pornography is one of the most powerful weapons that Satan has ever used to enslave Christians, to neutralize or limit their walk with God. Pornography is part of our modern culture, online and offline. And Christians are not immune to

its power. It is addictive, and can ruin our personal relationships and our relationships with God. In this challenging and honest book, experts in the field examine the subject of pornography on the internet, the danger to children, how pornography affects users and others in their lives, and much more. Never judgmental, it addresses sensitive issues wisely and there is also advice about what to do if you are addicted yourself. A must-read for those concerned about what their children are accessing on the net or who are troubled about the sex-soaked nature of our society.

"A fantastic resource ... I would encourage everyone to take advantage of it." Pastor Rob James Evangelical Alliance Wales "I had the privilege of attending the conference on which this book is based. It was practical, challenging and immensely moving. I am thrilled that the book will allow so many more men (or should it be "people") to enjoy it." Rob Parsons Care for the Family "We are so grateful to CARE for tackling this important subject." Nicky Sila Lee Holy Trinity Brompton
About the Author Darrell Cosden is Lecturer in Theology and Ethics at the International Christian College Glasgow Scotland UK
