By Lee Husemann
This is a great collection of 6 famous serial killers, Fish, Bundy, Nilsen, Dahmer, Ridgway and Kemper. There is a lot of new information that I had not heard of before on these killers and their crimes. This is an excellent reference book for any TC library. I am looking forward to future volumes.

By Christy Cagle
Very interesting read; however, the repetition of details and complete narratives were unnecessary. Some dates and info differed from previous statements, but otherwise a very knowledgeable presentation. I have read other works by RJ Parker and the details and narrative are well delivered.

This is the first book in the 'Serial Homicide' series which will feature six notorious cases in each volume. INCLUDES PHOTOS
