A delight for kids of all ages!By Morder4@aol.comI loved reading Smokey Tails! The author has written a story that is as wholesome as it is whimsical. This is a book that has more substance than most children's stories, and the accompanying illustrations are awesome! You don't have to be a fan of SEC football to appreciate this story, but if you are, you'll recognize the cast of characters immediately, and the playful colloquialisms will also be familiar to any southern reader. This book deserves a spot on any Vol fan's shelf, whether you're a kid...or just a kid at heart!0 of 0 people found the following review helpful. Best kids book for UT fansBy Abby3211My daughter is 4 and LOVES Smokey. We go to every football game and she always wants to see him. This is her new favorite book. She loves having a story about her "go vols puppy" and she loved recognizing the other characters based on their football team. Plus, it made me laugh the whole time. This book was passed around UT Law School we enjoyed it so much!
