Chava Frankfort-Nachmias, Anna Leon-Guerrero : Social Statistics for a Diverse Society before purchasing it in order to gage whether or not it would be worth my time, and all praised Social Statistics for a Diverse Society:

0 of 0 people found the following review helpful. Clear, Concise, No-nonsense.By WhatILikeI'm not terribly enthralled by statistics, but this has been a concise 'no nonsense' book for my course. I feel that it has explained concepts well and clearly. The subject isn't my bread and butter, but the explanations in this textbook have been helpful. I'm grateful that we used this book.1 of 1 people found the following review helpful. For SOC 345 ClassBy Budget StudentBook is required for my SOC 345. Really easy to understand and followed through. I enjoy the practice exercises in the book, even though they aren't required for class, it helps me getting a better understanding of the material. Also it help refreshes my mind, since I can go back and see what I have done.Nothing bad to say. Needed it and its helping me move along smoothly in my class.0 of 0 people found the following review helpful. Good theory, bad SPSS directionsBy COA4The book is well written on the theory portion. The SPSS directions does not follow

well with version 24 and later.

Today's students live in a world characterized by a growing diversity and richness of social differences. In the seventh edition of *Social Statistics for a Diverse Society*, authors Chava Frankfort-Nachmias and Anna Leon-Guerrero continue to help students learn statistics through real research examples related to the dynamic interplay of race, class, gender, and other social variables. Focusing on the constant intersections between local and global social concerns and methods of inquiry and investigation, this new edition continues to emphasize intuition and common sense while demonstrating the link between the practice of statistics and important social issues. In addition, guides for reading and interpreting the research literature help students understand key statistical concepts, while SPSS demonstrations and a rich variety of exercises help them hone their problem-solving skills.

About the Author Chava Frankfort-Nachmias is an Emeritus Professor of Sociology at the University of Wisconsin-Milwaukee. She is the coauthor of *Research Methods in the Social Sciences* (with David Nachmias), coeditor of *Sappho in the Holy Land* (with Erella Shadmi) and numerous publications on ethnicity and development, urban revitalization, science and gender, and women in Israel. She was the recipient of the University of Wisconsin System teaching improvement grant on integrating race, ethnicity, and gender into the social statistics and research methods curriculum. She is also the coauthor (with Anna Leon-Guerrero) of *Social Statistics for a Diverse Society*. Anna Leon-Guerrero is a professor of sociology at Pacific Lutheran University in Tacoma, Washington. A recipient of the university's Faculty Excellence Award and the K. T. Tang Award for Excellence in Research, she teaches courses on statistics, sociological theory, and social problems. As a social service program evaluator and consultant, she has focused her research on welfare reform, employment strategies for the working poor, and program assessment. She is the coauthor of *Social Statistics for a Diverse Society* and *Essentials of Social Statistics for a Diverse Society* (with Chava Frankfort-Nachmias).
