**Claudia Malacrida, Jacqueline Low : Sociology of the Body: A Reader** before purchasing it in order to gage whether or not it would be worth my time, and all praised Sociology of the Body: A Reader:

Sociology of the Body brings together forty-two classic and contemporary essays exploring the multitude of ways in which human bodies shape and are shaped by society. Employing an overarching intersectional approach, Claudia Malacrida and Jacqueline Low draw insightful connections among the diverse readings, revealing how different social constructs and relationships combine to influence how bodies are used, represented, understood, and managed. With an array of new readings and added coverage of the latest research and perspectives throughout, the second edition offers a thorough, up-to-date introduction to the sociological study of the human body.

"This is a very strong text. . . . I like that this textbook offers a range of scholars, both contemporary and historical, because it is critical to demonstrate to students the trajectories that span across time." --Rachel Hurst, St Francis Xavier University  
"The collection is very comprehensive! . . . I think this is a wonderful teaching resource and am continually impressed by its coverage of diverse and fascinating topics. The articles are well-written and beautifully researched, and they treat this topic with the respect it deserves." --Jennifer Susan Marotta, Humber College
