From John Scott : Sociology: The Key Concepts (Routledge Key Guides) before purchasing it in order to gage whether or not it would be worth my time, and all praised Sociology: The Key Concepts (Routledge Key Guides):

0 of 0 people found the following review helpful. Very useful book by the best sort of scholarBy doug kortyWhether you are extremely interested in sociology or just want to get a good summary of what it is about, this is a very useful book by a great sociologist. Over 40 entries run from "Action and agency" to "World systems", Scott writes a number

of the entries himself. Scott is not well known in the U.S. but is extremely respected in GB. He has a long list of publications, many of which are designed like this book to help people understand what the field of sociology is all about. He is the best sort of scholar, someone who furthers human understanding. From Wikipedia

[...]Publications[edit]Scott's book publications on stratification and on economic and political sociology include:Corporations, Classes and Capitalism, London, Hutchinson, 1979. American edition, St Martins Press. Reprinted 1981. (Japanese translation: Tokyo, Bunshindo, 1983). Completely revised Second Edition 1985The Anatomy of Scottish Capital, with M. Hughes, London, Croom Helm, 1980. Canadian edition, McGill Queens.The Upper Classes: Property and Privilege in Britain, London, Macmillan, 1982.Directors of Industry, with C. By Theyreplayinggoodstuff81@Outstanding reference book.

An essential A-Z guide to the full range of sociological thought, *Sociology: The Key Concepts* is an important addition to the established and successful *Key Concepts* series. Fully cross-referenced with an extensive glossary, this accessible text also includes: alphabetical listings of key concepts for ease of use suggestions for further reading to enhance understanding of areas covered entries on traditionalism race and racialization and modernity. Bringing together an international range of highly regarded contributors from the full spectrum of disciplines, this useful reference guide is the ideal resource for those studying or interested in this popular area.

About the Author John Scott is Professor of Sociology at the University of Essex. His most recent books include *Power* (2001), *Social Theory: Central Issues in Sociology* (2006) and, with James Fulcher, *Sociology*, third edition (2006).
