Fredrick C. Harris : Something Within: Religion in African-American Political Activism before purchasing it in order to gage whether or not it would be worth my time, and all praised Something Within: Religion in African-American Political Activism:

One of the first book-length studies in decades solely devoted to religion and African-American political activism,

Something Within explores how Afro-Christianity encourages political activism among African-Americans. Combining ethnography, history, contextual analysis, and survey research, this book illustrates the participatory effects of Afro-Christianity by examining its institutional, psychological, and cultural influences. Moving beyond the current debates on the subject, Fredrick C. Harris advances a new theory of religion as a political resource for a "civic culture in opposition."

"Meticulously researched...[a] pioneering work...highly recommended."--Choice
"A readable and informative narrative."--Journal of Church and State
