Donald F. Reuter : Songbird: A Visual History of Women in Music before purchasing it in order to gage whether or not it would be worth my time, and all praised Songbird: A Visual History of Women in Music:

0 of 0 people found the following review helpful. The female Vocailist need much better treatment .. Than this. Alex RiddickBy Alex RiddickThis is the worst illustrated book on FabulousFemale Vocalist ever. It is clearly evident that

Mr. Donald F(Failure) Reuter shoes not like the singers that he is profiles. The photographs are extremely awful and the small description abut each of the vocalist is dreadful. Please stay away form this book!! It's hard to determine if he is mocking them and making fun of their great contributions, Each singer needs to given praise with decent photo's and better profiles.

Songbird brings together all the most memorable female singers of our time-from Aretha Franklin to Annie Lennox, Emmylou Harris to Eartha Kitt, Debbie Harry to Dinah Shore, along with dozens more. In a seemingly male-dominated industry, these women have fought long and hard for recognition and success. Songbird tells the story of their struggles and reveals many of the artistic connections between these performers. More than 150 rarely or never before seen portraits, vintage record covers, and concert shots evoke the glamour of their performances, the glitz of their stage personae, and the power of their voices. An inspiring testament to the triumph of female singers, Songbird provides a playlist of favorite songs and albums that will introduce you to new performers and reacquaint you with some classic singers of the past.

About the AuthorDONALD F. REUTER has served as creative director on a number of books including the New York Times best-sellers Making Faces and Face Forward by Kevyn Aucoin. In his acclaimed Universe collection-Heartthrob, Heavenly, and Shirtless!-Reuter has mined photo archives to show us screen and stage icons as we've never seen them before.
